

JOB OPPORTUNITY!!!

(POST DATE 8.10.11)

POSITION: Machining and Metal Working BUYER

A Southern California aerospace manufacturer is seeking a dynamic, energetic and motivated person to purchase raw materials and machined parts, both military and commercial grade. Knowledge of castings and forgings with a good working knowledge of military sheet metal work is a plus.

The successful candidate must have at least 10 years of hands-on experience with purchasing and negotiating the purchase of the items listed. You should be self-starting, highly organized, outgoing and with excellent people and telephone skills. We would expect you to have excellent negotiating skills; the successful candidate will be looked upon as being an integral part of the corporate procurement team.

We work in a manufacturing environment and on time deliveries are at the top of our priority list, and they should be on top of yours too. Basic knowledge of computer software such as Word, Excel and ERP would help immensely. The opening is at our Inglewood facility.

We offer commensurate salary along with vacation pay, voluntary 401K, subsidized medical coverage and optional dental coverage. We also offer a pleasant working environment in a privately owned entrepreneurial setting. Experience in this kind of setting while performing similar tasks with a sense of urgency is a definite plus.
